Santa Fe Independent School District Multi-Hazard Emergency Operations Plan

Prepare, Achieve, Succeed

Effective Date: September 22, 2015

PROMULGATION STATEMENT APPROVAL AND
IMPLEMENTATION

The Santa Fe Independent School District is committed to the safety and security of students, faculty, staff, and visitors on its campuses. In order to support that commitment, the School Board has asked for a review of the Santa Fe ISD emergency mitigation/prevention, preparedness, response, and recovery procedures relevant to natural and human-caused disasters.

The Emergency Operations Plan that follows is the official policy of the Santa Fe Independent School District. It is a result of a comprehensive review and update of school procedures in the context of its location in cities and communities the district serves. It recognizes the potential for events occurring both within the school environment and outside the school affected by factors beyond school control. We support its recommendations and commit Santa Fe Independent School District resources to ongoing training, exercises, and maintenance required to maintain the readiness of school personnel and keep it current on school crisis management.

This plan is a guide that relies on the commitment and expertise of individuals within and outside of the Santa Fe Independent School District community. Furthermore, it clearly communicates to our emergency management partners an ongoing commitment to monitor and stay current on emergency management practices and advisories essential to responding to school emergencies.

This emergency operations plan is hereby approved. This plan is effective immediately and supersedes all previous editions.

Santa Fe ISD Superintendent of Schools
